FRESNO, FRESNO COUNTY, CALIFORNIA, APRIL 11, 1890.

NO. 27.

THE CHINESE DEAD.

Loo Quong Told About Them Last Sunday.

SINGULAR ORIENTAL BELIEFS.

The Spirit of a Murdered Man Will Follow the Murderer All Through Life.

Many of his old Fresno friends including G. G. Gouche, City Marshal Barker and Deputy Constable Fraser will attend the funeral.

for two terms and was defeated for the State Senate by Mr. Montgomery.

After the outbreak of the civil war Mr. Terry for Texas to take up arms for the Southern Confederacy, but he was captured by United States authorities near Fort Sumter and confined to him at that place, and although imprisoned on Alcatraz Island, in San Francisco bay, he leaves a widow, four daughters and one son.

Many of his old Fresno friends including G. G. Gouche, City Marshal Barker and Deputy Constable Fraser will attend the funeral.

LABORERS OR TRAMPS?

The Story of Five Men Who Landed in Jail.

His empty beer bottles, with patent stoppers, a gunny sack, a flask full of whisky and a few dried oysters were brought into the Recorder's Court yesterday by Special Officers Baker and Radcliffe. They also brought Frank Adams, Michael Morrissey, Frank Wright, Richard Hennessy and John Hennessy, who were charged with being dissolute and idle persons, sleeping in a barn without permission of the owner, being healthy beggars and vagrants.

Hennessy showed by a reputable witness that he had worked as a waiter in the clubhouse at the race track. He said that he was paid off on the day before.

"I have any of your wages left?" asked the Court.

"Yes, sir."

"On you?"

"Yes, sir."

A GOOD JUDGING PLACE.

"How did it happen that they did not find the money on you when they searched you at the jail?"

For answer Mr. Hennessy put his right hand into his left sleeve and fished out a white. He produced a brown colored rag tied in several knots, and in this last knot was three dollars.

The Court discharged him.

Mr. Hennessy is a stout, manly young fellow, bearing a strong facial resemblance to John J. Sullivan. He said that he had just arrived from the City of Mexico, where he had been working as a blacksmith's helper for several months. The Board then lightened up.

The petition had just received its final

fold by the President when Toups moved that the petition be denied.

"I am opposed," said he, "to the petition being granted, on account of the city street that would be the result.

The citizens and citizens complained to me enough, let me sum up, about the dust and to have some road, about

that would necessarily be, I decidedly disfavored it."

TONS HOLD OUT FOR THE UNION.

J. R. White, the well-known capitalist and one of the most successful business men in Fresno, is a strong-toned voice that he was sorry that the petitioners would interfere with anybody on account of raising dust.

"If property owners on Fresno street can stand the dust I don't see why he

should object. We want to put that street in order so that it can be paved with bituminous rock."

Tonue—White is talking about something he knows but little about. If I don't own property on Fresno street I own some near by. Of course I don't own any property on the street, he emphatically exclaimed, but no one knows better than Mr. White that this is no good for paving up the streets.

Color of the opinion that the board had made some mistake as to the petitioners, but thought that the one big question should first be settled.

He also thought it would be better to Vronomize the street at present.

The motion to grant the petition

was then put and lost.

MORE SALOONS.

F. W. Quisen of 324 G street and W. H. Miller of 14th and W. H. Miller presented petitions to be granted licenses to conduct a saloon business. Under the rule the petitions were laid over for one week.

Petitions for liquor licenses were

granted to Charles Russ & Henry Garvin of 313 G street and C. Hoff & Co. of 634 G street.

ANEXATION.

A petition was received from residents of Woodward's addition asking for annexation to the city. The petition was placed on file in order that other additions might be heard from before taking final action.

OFFICIAL COLLECTIONS.

City Clerk Dennett reported having turned over to the City Treasury \$12,240, as collections of his office for the month of March.

The report of City Marshal Barker showed that he had collected \$416 last month as the receipt of license sold.

The fines collected by City Recorder Prince for March amounted to \$400. The reports were accepted and placed on file.

STREETS ACCEPTED.

Street Superintendent Orumming reported having accepted the grading on the following streets as completed: G street, from Kern to Tuolumne; Kern, from E to N; from Ventura to Amador, excepting from Kern to Fresno; I, from Ventura to Amador street. He also presented his quarterly report, which read as follows:

QUARTERLY REPORT OF STREETS OR STREETS.

Fresno, April 1, 1890.

To the Honorable Board of Trustees:

Gentlemen: Herewith I submit my quarterly report ending March 31, 1890.

27. Motion of four many children, and number of those children living.

11. Place of birth of father.

12. Place of birth of mother.

13. Number of years in the United States.

14. Whether naturalized.

15. Whether naturalization papers have been taken out.

16. Profession, trade or occupation.

17. Monthly unemployed during the census year (June 1, 1890, to May 31, 1890).

18. Attendance at school, in months, during the census year (June 1, 1890, to May 31, 1890).

19. Able to read.

20. Able to write.

21. Able to speak English. If not, the language or dialect spoken.

22. Whether suffering from acute or chronic disease, with name of disease and length of time afflicted.

23. Whether defective in mind, sight, hearing or speech, or whether crippled, maimed or deformed, with name of defect.

24. Whether a prisoner, ex-convict, homeless child or pauper.

25. Is the house you live in, or is it owned by the head or by a member of the family?

26. If owned by head or member of family, is the home free from mortgage incurrance?

27. If the head of the family is a farmer, is the farm which he cultivates his own or is it owned by him or by a member of the family?

28. If the home or farm is owned by head or member of family, and mortgaged, give the postoffice address of the owner.

It is desirable that every one should be acquainted with the scope of the inquiry, and that correct information shall be furnished. Some of the questions are searching, and people may be reluctant to reply, but it should be remembered that the information is private, and will be held as such by the census officials.

These questions have been almost fully from the census bureau, and are the same as those are now on file and in the library of the State of California.

There has been experience for misstatements.

The Fresno Republican

FRIDAY AFTERNOON

Short & Shanklin.

TERMS:

For Annual in Advance, \$25.00

For Monthly, \$2.00

Advertisement \$1.00 per column per week.

FRIDAY, APRIL 11, 1889.

The Republican County Central Committee will meet in this city on Saturday, April 13th for the purpose of discussing the political situation.

STRANG how some men will see a little item in the newspaper in reference to some general proposition and apply it exclusively to themselves. It takes all kinds of people, however, to make up a world.

The peach crop in Fresno county promises to be very large, and unless some unforeseen accident befalls it the owners of peach orchards will reap a rich harvest this season. Apricots and other stone fruits also promise well.

An effort will soon be made to pave Fresno street from K to H. With that work completed, and K street paved between Fresno and Tulare streets, the business part of the city will have the finest streets of any place in the state.

There is no enterprise of equal importance nor to which the people of Fresno are looking forward with so much anxious interest as the construction of the proposed Kings River road. Definite news concerning the matter is expected within very short time.

The annual floods in the Mississippi valley are more disastrous this season than for several years past, and the Signal Service warns the people of that great basin that the worst is yet to come. No part of the earth is perfect as a habitation for man, but California as a whole suits us pretty well.

There is a scheme on foot to have a review of representative vessels from the navies of the world in New York harbor in 1892. It may be that a number of the leading nations will have more serious work for their warships in 1892 than to exhibit them to the Gothic.

PROHIBITION will be resubmitted to a vote of the people of Iowa aside from politics. After trying strict prohibitory laws for a long term of years, which never have been effectively enforced, it now seems a foregone conclusion that they will be repealed and local option and high license methods tried instead.

THE REPUBLICAN enjoys the jealousy which prompts its daily and weekly contemporaries to make dirty flings at it. The street garran cannot successfully spy the substantial citizen, neither can an organ fool the people by pretending to be a newspaper. That is what all our contemporaries.

Individuals all point to the fact that there will be more building done in Fresno this year than there was in 1888, the so-called boom year. Several very fine brick blocks are now under way and arrangements are being rapidly made for others. Numerous residences are also being built both in the city and suburbs.

EASTER services will be appropriate in the various houses of worship in this city to-day. It is pleasant to look over the various announcements of more than a dozen different church and educational institutions in our columns this morning and think that less than a year ago Fresno could boast of but two or three such organizations.

Every land owner who has a water right should irrigate his land while the weather is yet cool. Soak the land full of water now, and it will need little irrigation when the hot weather comes on. There is plenty of water in all of the streams now, and it should not be allowed to run to waste. Much new land might be wet up and leveled for next fall's planting.

RESCUE effort should be made at once to secure the holding of the Republican State Convention in this city. The southern counties will support Fresno, and with the votes we are entitled to from the central part of the state we ought to win the prize. No other city in the state will be better prepared to take care of and entertain the delegates to the convention than Fresno.

Within ninety days there will be a move in railroad circles in California that will cause some people, who have so long and earnestly prayed for a competing line, to throw up their hats and shout with joy. The Southern Pacific monopoly will be a thing of the past before the end of 1890, and Fresno will be the railroad center of the interior of the state.

"WATENHAW's chances of succeeding himself as Governor seem to be growing brighter," remarked an independent a day or two ago to a Republican friend who doesn't own a railroad pass. "Why so?" queried the Republican. "Well, you see," answered the wag, "he has the support of a certain Republican element, and all the Democrats are for him."

The great increase in the use of adulterants in food is attracting widespread attention. People are forced to notice these shameful frauds, compared with which the far-famed wooden nutmegs are made to assume a harmless appearance. It is not unlikely that the matter will be made the subject of legislation during the present session of Congress.

SULLIVAN and Corbett will fight four rounds with gloves in New York. If the California boy stays through the four rounds he will receive 65 per cent of the gate receipts. Big Joe McAlpin, with whom Corbett has so far declined a meeting, is now on his way East, and hopes to meet Sullivan or any one else from \$500 to \$10,000 before his return to the coast.

The Sunday Examiner was a stunner as a boom edition, and will prove of great benefit to California. If the Examiner would just turn some of its influence to booming a new transcontinental railroad it would do this state a greater service than it will ever be able to do in any other direction. Why not organize "The Examiner Railway Company," and build a line from San Francisco to Mojave?

FEDERATION AND PROTECTION.

The colonies of Australia are actively agitating the scheme to organize the Federation of the island governments. Moving in it are New South Wales, with a population, in round numbers of 1,200,000; Victoria, 1,200,000; South Australia, 320,000; Queensland, 380,000; and West Australia, 50,000. The total imports of all the colonies amount to over \$600,000,000 annually, and the total exports to a little below this enormous sum. Of these the total of nearly \$150,000,000 imports, come from the United Kingdom, and the total exports are about \$120,000,000. The population is mainly of English, Scotch and Irish nativity, well educated to foreign trade. New South Wales and Victoria are nearly equal in trade, as in population. The two colonies possess two-thirds of the trade of all Australia, and supply the same proportion of revenue. Sydney and Melbourne, the capitals and chief ports, respectively, of the colonies are the chief cities in population. Sydney with 300,000, and Melbourne ranking it with 250,000. These particulars are interesting in connection with the subjects herein treated.

The surprising growth of Australia, from the condition of a vast British penal colony, into an island continent of five free colonies, within less than fifty years, is a marvel to English comprehension. The discovery of gold near Bathurst, in 1851, gave extraordinary impetus to emigration from the United Kingdom, and the abandonment of the colony as a penal establishment prior to that caused thousands in the mother country to go there to make their homes. Accordingly, it is fair to assume that the greater proportion of the people of Australia were in early life imbued with the doctrine of free trade, as it was maintained in England and the sister kingdoms of Scotland and Ireland. Within these forty years the population has increased from less than 300,000 to more than 3,000,000, and the colonies have emerged to great importance in commerce and finance. A brilliant future is before them, and the people are alive to their grand destiny. Therefore they now are ambitious for that measure of independence which federation can assure, and while they continue to acknowledge the supremacy of the Imperial Government in England, they are determined to have a Parliament of their own. It is the spirit of home rule—the right to manage their domestic affairs in their own way. In this spirit they discard the English doctrine of free trade and adopt the American doctrine of protection. They go farther in this direction. They favor the American system of federation, and reject the Canadian system of Dominion. As the American states, without regard to area or population or wealth, are all equals in the blessings and the burdens of government, and enjoy complete equality in the Union, so is the prevalent determination in the colonies that in the plan of federation every colony shall be guaranteed equal rights and equal status, without respect to population or other conditions. Except New South Wales alone, all the other colonies favor this order of federation. That colony, however, is more in favor of the Canadian Dominion system, of a commanding and central dominating Executive, which shall in supreme colonial matters have control.

Temporary advantage might possibly cause their permanent retirement. Tennessee occasionally elects a Republican Legislature and the "solid South" would not remain solid very long after the Democrats had set the example of a monitor with equal battery power, but is capable of fighting to advantage under any and all circumstances, while the monitor is not. The modern battle ship can go to sea and remain there for months, able to take care of herself under all circumstances and in all kinds of weather. The United States navy does not contain a single modern cruising battle ship at present. The Secretary of the Navy has asked Congress to provide for the immediate construction of eight such vessels, to cost in the neighborhood of \$6,000,000 each, armed and equipped, and this request is what caused the discussion now agitating the press more or less throughout the whole country. That the United States must have a limited number of ships which can visit other countries without fear of losing them must be admitted.

The modern sea-going battle ship contains the revolving turreted future of the old style monitor with high free board, belt armor, coal endurance, greater speed and buoyancy. Such ships cost twice as much as a monitor with equal battery power, but is capable of fighting to advantage under any and all circumstances, while the monitor is not.

The modern battle ship can go to sea and remain there for months, able to take care of herself under all circumstances and in all kinds of weather. The United States navy does not contain a single modern cruising battle ship at present. The Secretary of the Navy has asked Congress to provide for the immediate construction of eight such vessels, to cost in the neighborhood of \$6,000,000 each, armed and equipped, and this request is what caused the discussion now agitating the press more or less throughout the whole country. That the United States must have a limited number of ships which can visit other countries without fear of losing them must be admitted.

One of the most interesting features of Fresno's surroundings is the barren stretch of land extending from near the city on the northwest to the San Joaquin river. People riding through on the cars naturally look for the Fresno colony system after passing through the city. If they happen to be going north they do not see it, and then they get a lasting impression that is erroneous. That section of our county has been greatly retarded in settlement and improvement because the land was held in large tracts by speculators who made no effort to get water upon it or improve it in any manner. Raising peanuts or vegetables may seem like pity farming to some of our colonists with "elevated ideas," but \$100 an acre for peanuts comes in just as handily on the ranch as the same amount from grapes, peaches or pasture land. Little things sometimes pay more clear money than big ones. Farmers with small tracts of land must utilize their acres to the best possible advantage, and to do this no idle space can be allowed.

Love would be monotonous were there no variety. It is very monotonous, not to say garrulous, to some people as an old man.

A doctor will sit down and write a prescription—time five minutes, paper and ink, 1/2 of a cent, charges \$1.50, \$2, \$5 or \$10 as the case may be. A lawyer writes ten or twelve lines of advice, and gets \$10, \$50 or \$500 from his client. An editor writes a half-column just for a man, pays the printer \$1 to \$1.50 for setting the type, prints it on \$7 worth of paper, sends it to several thousand people, and then expriests the puffed man if he makes any charge.

Since Bismarck retired from the Chancellor there has been a marked change in sentiment in German official circles toward the United States. The young Emperor is very desirous of cultivating the most friendly relations with the great Republic, and it is asserted that he will seize the first opportunity presented, that afforded by the visit of American riflemen to take part in the proposed innovation in the number of chousing electors in Ohio. If the Democrats set the example they can rest assured that their political enemies will go them one better. Such a partisan warfare once inaugurated would eventually destroy one or both of the old parties.

AMONG the various gentlemen mentioned so far as the possible Republican nominees for Governor, none seem to command such universal respect and earnest consideration as that accorded Colonel H. H. Markham of Pasadena. His record as a public man is bright, his services are of infinite value to the colony, and he is a man of high character.

BRUTAL CHARLES BOND.

He Knocked a Woman Down and Jumped Upon Her.

SAID HE WAS A BAD MAN.

A Fresno Huster's boast that he was Jack the Ripper, and a Tearer of Windpipes.

"He ran out after me into the street, hit me on the head with his fist, knocked me down in the gutter, and jumped on me with both feet."

The speaker was Alas. Jennie Sweet, who keeps a boarding-house at 1501 K street, with her husband. She had availed to a complaint charging Charles Bond, alias John Doe, with battery and disturbing the peace. Bond is a huckster in the employ of C. G. Sayle, the attorney.

Mrs. Sweet's story is to the effect that a short time ago she secured, through Mrs. Alexander's employment agency, a cook named Mrs. Monday, who represented that her husband was out in the country at work.

Last Thursday evening about supper time Bond called on Mrs. Monday and had been there but a short time, when they happened to have got into a quarrel for the cook had come into the yard and told Mrs. Sweet that she was afraid that Bond would hit her.

Mrs. Sweet ordered the cook to leave her house, but on his refusing to go and continuing the disturbance Mrs. Sweet herself, her husband not being home at the time, ordered Bond to leave the house.

A COWARD'S BLOW.

"He then struck me," she continued, "and called me all the vile names he could think of. I went out of the house to get a policeman, but when I got in front of Judge Sayle's house he caught up with me and struck me on the head and knocked me down. He then tried to push me over the railing."

"I called for assistance, and a young gentleman named Packard tried to help me, but Bond beat him and drove him away. I ran into the street and ran after me and struck me another blow on the side of the head and knocked me down with the gutter and jumped on me with his fist."

"He caught me by the throat and choked me and said that he would tear my heart out and my windpipe out. He said also that he was a bad man and that he was Jack the Ripper."

Run OUTRAGE WHIMSY AWAY.

"I shouted to the driver of the street car that was going by to help me, and Bond was led to the house. Mr. Packard then went with me to the City Hall arrest, where I swore to a warrant for Bond's arrest."

Mrs. Sweet exhibited in her Recorder the prints of the stab-wounds and scratches made by Bond's fingers on her throat.

Before any evidence was taken in the matter Bond said that he wished to plead guilty to the charges of battery and disturbing the peace, as he didn't want to be "exposed."

The Recorder said that Mrs. Sweet had made a very important affidavit against the man that she wanted him to be held in bonds to keep the peace. The complainant had not been filed, and the Court rejected Mrs. Sweet's request to press his charge. Mrs. Sweet and her husband said that they would be willing to withhold that charge if Bond would not go near the home again or molest her in any way. The prisoner gave the desired promise, and the charge was dropped.

SHE WILL DEFEND HERSELF.

"If ever he attempts to do such a thing as that again," said Mrs. Sweet, "I will shoot him. I think it was whisky that made him do what he did, as he was drunk at the time."

She added that the prisoner had once before assaulted a woman on a street car. This the prisoner denied. He said that he had never been arrested before.

The Recorder said that the matter was too serious to be decided without further investigation, and he would therefore postpone passing sentence until he could examine further into the circumstances.

He fixed the prisoner's bonds at \$200 on the charge of disturbing the peace.

A BRAVE BOY.

His Thrilling Rescue of a Young Girl From Death.

Eddie Campbell is only 15 years old, but he is braver than many an adult twice his age.

He exhibited rare presence of mind and heroism yesterday when he saved the life of a little girl who was in imminent danger of death from a runaway horse.

At noon A. C. Conrad, agent for the Singer Sewing Machine Company, drove up to his residence on Stanislaus street, near 1, and got out of the light wagon to catch the horse. As his little daughter Matie was alighting from the vehicle she slipped, fell, and dashed down the alley, with her head hitting on the dashboard. The horse ran and the black one and a half time and through the alley again cut into 1 street.

The lines were fraying on the ground and all that the girl could do was to cling to the seat and dashboard to avoid being thrown out. As the horse passed by Eddie Campbell caught hold of the back end of the wagon and climbed in. Then he took hold of the girl and helped her to the back end of the wagon and jumped out with her, both escaping without injury. The horse was stopped by several men before he had gone many yards farther and before he had damaged the vehicle or himself.

ALL SERENE.

Ericson's Injunction Suit Against W. J. Lindrose Dismissed.

Editor BRUTAL CHARLES BOND: Charles A. Erickson, now being satisfied that his injunction suit, which he filed against me, was groundless, that I did not intend to destroy the ditch when plowing it, and that I only did to root out some old stalks growing on it, and I having opened it again a day before he filed the injunction papers, and he having sustained no loss, he has dismissed that injunction suit against me, mentioned in this paper a short time ago.

He is now, however, a wiser man, with some dollars out of pocket; but we made friends, are back on friendly terms, all round, while watching the water flow and our fruit and raising grain.

We are reading The Republican's good news about the great demand for fruit and raisins in the East, and the prospect of good crops in the West. And we think that it is time that another railroad should be built to move that enormous grain, fruit and raisin crop out of the county and get it to an early market without waiting for the convenience of Stanford & Co. to do all the hauling at their own price.

Fresno, April 4, 1890.

The Madera District Election.

S. S. Russell of Madera was in the city yesterday. He was a candidate for Tax Collector at the election of officers

of the Madera Irrigation District and thinks he will be elected, although the precincts have not yet been heard from. There were about 370 votes cast. The former Directors from Eastin, Borden and Madera were re-elected, and E. H. Chapman of Benicia and Thomas Minton of Minton will most likely be the new members. Nathan Rosenthal for Treasurer and J. W. Watkins for Assessor were elected.

THE FIRE DRILL.

A little Help Needed to Make the Drill Perfect.

The members of Engine and Hose Companies No. 1 and of the Hook & Ladder Company had a very interesting fire drill last night. In the absence of the Chief Engineer the drill was conducted under the supervision of First Assistant P. G. Hart.

The horses and the swinging ladders worked admirably, and the apparatus was in the street in 15 seconds after the first top of the gong. At the end of four minutes and a half the ladders were up to the roof of the Central School building, several blocks distant from the engine house, and a full stream of water was playing on the roof. The water was taken from a hydrant near the starting mills and the supply and pressure were good.

Charles G. Sims, one of the most enthusiastic members of the Volunteer Fire Department, said that the time of getting out of the house and getting the ladders up would be materially reduced if a chute or sliding pole were provided so that the firemen may come down stairs in the rear of the horses. Under the present system they are obliged to run in front of the animals and get in their way. A steam heater to keep the water hot in the boiler is an imperative necessity, as on short runs to fire in the business part of town the firemen have to wait for some time before steam can be raised. A first-class heater can be put in for \$400. With a heater there can also be maintained a pressure of ten to fifteen pounds in the boiler. To increase this to 20 pounds the pressure must be raised.

"With a heater there can be maintained a pressure of ten to fifteen pounds in the boiler. To increase this to 20 pounds the pressure must be raised.

"With a heater there can be maintained a pressure of ten to fifteen pounds in the boiler. To increase this to 20 pounds the pressure must be raised.

SHUNNING THE DOG TAX

One of the Objections to Annexation.

POLICE PROTECTION DEMANDED.

A Suburban Wants to Know What Benefits He Will Derive from the Fusion.

From the Daily of Saturday. Several property-owners in the suburban portion of the old Fresno District are not satisfied with the legal opinions recently received by the Board of Education, to the effect that the incorporation of the city has deprived these people of the right that they had paid for when they taxed themselves for the building and equipping of the Central School. Some of them journal out that no law could be passed by the Legislature to invalidate existing contracts, and they hold that as they have paid for the building of the Central School they cannot be deprived of the use of it.

LOCAL ADVICE. In other words, they say that the action of the city in withholding them from the use of the school amounts to confiscation of property. In order to have the matter determined by wholly disinterested lawyers they made up a sum of \$100 as a fee and have secured a written opinion from a law firm in San Francisco. The opinion appears to be highly satisfactory to the suburbanites, but their decline to state as present what its purport is.

AN OPINION. A resident of one of the additions said to a Republican reporter yesterday: "I would have no objection to come into the city if I saw that I was to gain any advantage by it, but I fail to see where I would be the gainer. It will be as bad as cheap for us to build our own school houses as to pay the city for a portion of the taxes." The other's announcement is that we would not be likely to have any police protection for three or four years acted as a wet blanket. If we come into the city we will increase our rate of taxation by 30 cents and we shall be obliged to pay a tax of \$2 a year on our dogs. We need watchdogs in the absence of policemen, and that dog license is almost equal to the tax on \$100 worth of property. The water company will extend its' mains and furnish us water whenever we ask for it. We are in the city or not. If the city can't afford to pay a few extra pennies to water the suburbs I'd like to know if it can afford to give us proper gas and electric lighting facilities."

I have found some residents of the addition in favor of the annexation, but the only reason why they wish to come in is because they want to avoid paying for the tuition of their children in the city schools. I have no doubt that some sections will favor annexation, but there are sections that will not."

THE KREGER DISTRICT.

A Resident Who Wants to Know About Annexing It.

EDWARD REPUBLICAN: I rise for information. At last night's meeting on the admissibility of the additions surrounding Fresno, partitioning the City Fathers to allow them the advantages of being under their fatherly care, I see by your paper that I was appointed to canvass the Kruger District. Now, Mr. Editor, I am in favor of anything that will advance the interest of Fresno county, but before making my canvass I would like to answer to a few questions. Kruger (school) district is composed of part of Griffith's first addition, second addition, Kruger addition, part of American addition and some of the Creek. Now, we have voted bonds, built a schoolhouse, elected Trustee, hired teachers, and started on our own hook to teach the young idea how to shoot. I want to know whether we will still have to pay these bonds if we come into town, or will the city assume them?

If we will not be taxed with the payment of obligations already incurred by Fresno City, the rule should stand good that the city will not be taxed with our bonds. This is the sole advantage we will receive from our enterprise in building our school and than not only give it up to the city, but continue to pay one tax on our enterprise, and have to pay our share of city taxes in the future for schools for others?

Nest, shall I canvass the additions separately on separate petitions? If I do, what will the city do with that part of the school district which is not in any addition "as per map on file?"

If I do not, but canvass as proposed, shall I canvass non-resident owners, resident renters, non-resident owners, or all combined?

I think there is a bigger on the fence somewhere, yet am not only willing to be convinced, but demand that we know the law on this matter before we proceed. Let come one tax and explain.

G. F. ALEXANDER, Gouvern'r's Fuer Advoct, April 11, 1890.

Burned Out of His Home.

About a week ago William Farrow of West Park lost his residence and all his household goods by fire. The loss was a great misfortune to the family, as Mr. Farrow was seriously disabled three years ago, and had succeeded, by the assistance of an industrious wife, in building his home by honest endeavor and strict economy. Yesterday afternoon Mrs. Sevell and Mrs. Dugmore, two worthy ladies of the colony, came down to secure the assistance of the fire department to the unfortunate family. Among those who contributed liberally were Gouvern'r & Co., Kutter, Goldstein & Co., Witham & Morris, R. F. Scott, Sadio & Hurling, James Brown, M. J. Donohoe, Baird Bros., W. W. Phillips and others. It is thought that enough will be secured to relieve the wants of the family until such time as they can care for themselves.

Fred Brock Surprised.

A surprise party was given last night to Fred Brock at his home, corner of 1 and Tuolumne streets. Among the guests were: Fred Brock and Flora Hollebeck, Frank Chance and Myrtle McVey, Ernest McVey and Stella Chance, Frank Brodick and Lula Palmer, Roy Denny and Nora Raymond, Dick Daly and Edith Pancake, Karl Pancake and Ella Meade, Bert Lambkin and George Taylor, E. North and Zue Minard, Nellie Monroe and Della Wats, G. Dusenberry and Lillie Gilbert.

After spending the evening in dancing refinements were served and the guests dispersed.

Republican Committee.

The meeting of the Republican County Committee will be held at the Grand Central parlor this afternoon at 1:30 o'clock.

Although called simply as a committee meeting, members of the party having suggestions to make, or desiring to confer with the committee are invited to attend. Matters relative to the coming campaign will be considered.

Vagrants Sentenced.

Mike Moriarty was sentenced yesterday by Recorder Prince to sixty days'

ISMS AND ISMS.

Commented Upon by an Economic Student.

THE LESSONS OF THE PAST.

Remedies Proposed for Existing Evils—Anarchism and Nationalism the Future Issues.

Written for THE REPUBLICAN.

The world has always, since it left barbarism, had in it certain isms, certain creed, certain beliefs, which their advocates considered if they could be fully realized the world would be better thereby.

And the proposition, I think, will not need proving, that these isms came prominently into view through real or fancied abuse in human customs or governments. Of these ethical isms, Christianity, Mahomedanism, Buddhism, Confucianism, etc., I do not intend to speak; they have other advocates than I. But those isms to which I wish to call your attention are what may be termed political isms, deriving their existence from real or supposed tyranny of political or social conditions in various so-called civilized nations to-day. These isms present themselves each as anomaly, with a center and right and left wings. The center is composed of the solid, calm thinkers, in advance of all ideas; the one wing has in it those enthusiasts who, as soon as they hear a new thing, rush to conclusions, and expect to see their fondest hopes realized in a few years. The other wing is made up of those who see no remedy but force, extreme measures, even confiscation of property and bloodshed. Opposed to this army are all the selfish instincts of conservatism; those who find it in their personal advantage to keep the present order in existence; those whose profits are against change of any kind.

THE CRIMINAL SYSTEM.

The first attack on the advance of the ism is, that the bulk, per se, of the most rigid and disreputable, and we are in the city or not. If the city can't afford to pay a few extra pennies to water the suburbs I'd like to know if it can afford to give us proper gas and electric lighting facilities."

THE CRIMINAL SYSTEM.

<p

Short & Shanklin. Locked Up in the County Jail

With Two Friends.

IT WAS A PRACTICAL JOKE.

Their Value Appeals to a Skeptical
Trusty and Severe Hard-
Hearted Passersby.

W. H. Dwyer, the attorney of Selma, went to the County Jail the other day with W. R. Lynch and Phoebe Potter to interview Harry Colly, who was under arrest for demolishing Delta F. Roman. Before proceeding to the jail, they tarried for refreshments at the White Eagle Inn, and while waiting for the interview to end, they conversed on sundry subjects.

Mrs. J. L. Connor, the artist, will leave on this morning's train for Raymond, where she will pass a few days.

Frank H. Ball, the raisin grower, returned to San Francisco yesterday after a week's stay at his old home south of the city. He intends to visit Fresno during the latter part of next month.

Lester Osborne, representing the Los Angeles Evening Express, is visiting Fresno with the Los Angeles baseball team. Mr. Osborne is one of the most brilliant journalists of that broad-minded city.

Harry C. Colwell, accompanied by his children, returned to San Francisco yesterday, having spent the past week in Fresno visiting friends. Mr. Colwell thinks of returning to this city in the near future.

John Scheid brought suit in the Superior Court yesterday against C. W. Reinsberg and others to foreclose a mortgage on lots 1 to 6 in Block 14, Fresno. Judgment is asked for \$3000 and costs.

The "Great Metropolis" company that was to have played here last night was delayed at Reno, Nev., and could not make Fresno for last night. They will probably play here on their return from Los Angeles.

E. W. Martin, L. C. Morehouse and Gordon, Chas. of the State Board of Equalization, are in the city. The object of their visit is to compare the valuations of property with that made by the County Assessor.

The Odd Fellows have chartered eight cars for the accommodation of persons who desire to attend the picnic given near Kingsburg, on the 26th instant. Invitations have been accepted by the Knights of Honor, Hesperian and Fresno Lodges, L. O. G. T., and Companies C and F of the National Guard to attend in a body.

The marriage of S. E. Redden and Miss Johanna Garrett will be celebrated at 10:30 o'clock this morning, at the home of Mr. and Mrs. John Redden, south of this city. At 12 o'clock, the bridal party will leave on a north-bound train for a tour through Oregon. They intend to be absent about six weeks, when they will return and make Fresno their home.

Rev. and Mrs. Thomas Van Ness, arrived in this city from San Francisco last evening, and were warmly welcomed by the Unity Society. Mr. Van Ness preaches for the society to-morrow at Christ's hall. All believers in a rational religion are expected to be present, and all others cordially invited. Mr. and Mrs. J. R. White during their stay will be at the "Ward" to be served early this morning.

It is understood that the Jaycees, dealers in this city, are endeavoring to form a combination which will refuse to carry their banner this season unless it is put up in new gauks. The assigned reason is that weevils are propagated by old webs and scattered through new grain by those.

Another good reason may be found in the fact that there is quite a little stock of bags here, and in the existing impression among dealers in them, that they would look better in the farmer's granary than they do in the San Francisco warehouses.—Derald of Trade.

LOS ANGELES ON TOP.

The Fresno Club Defeated by a Score

of 12 to 6.

About 200 people repaired to the fair grounds yesterday afternoon to witness the defeat of the Fresno team by the Los Angeles ball-tossers. It was not expected that the local combination would annihilate Hellman's hard-hitters, and when the umpire called the last man out with a great deal of satisfaction that the local ball-odds could boast of the fact that the home team had succeeded in running six men across the home plate.

The game was interesting from beginning to finish, resplendent in fine base-running, fielding and batting.

The visitors have had no experience than the home team, and are under the strict discipline from Manager Hallinan and Captain Britain.

Umpire Packard gave satisfaction, but should refrain from using such harsh language as he did yesterday.

The Fresno boys play ball, and with a little more practice will be able to compete with any club in the state outside of the state.

Undoubtedly there will be a good attendance at today's game. For the visitors, the celebrated young fighter Darby will be in the box, and Witty Ward will be at the receiving end.

The home team will not strengthen to some extent, and a good game may be expected.

The following is the score:

LOS ANGELES.

A Big Demand for White Adriatic

Trees and Muscat Vines.

Castile Tiffins of the Fresno National

Bank is planting Muscat raisin vines on his 6-acre tract in Enterprise colony.

Dr. R. C. Gardner is doing the same to

twenty acres in the same colony.

The demand for rooted Muscat vines

still continues high, and the supply is getting very limited.

There has lately arisen an urgent demand for White Adriatic fig trees in Fresno, Tulare and Kern counties, but the supply is very small, cuttings selling for \$20 a 1000 and year-old trees for \$20 a 100. Major Denicke's successful experiment in shipping dried figs to Chicago last fall and receiving 9 cents per pound for them has caused a boom in that fruit. The White Adriatic bears fruit in two years from the cutting, and it is said that California is the only state in the Union in which the fig can be successfully grown.

A Healthy Report.

The report of the Health Officer shows a remarkably healthy condition of the people of this city. There is no epidemic or prevailing disease, but for the past two weeks the doctors have been rushed with midwifery cases, and one from brain fever. Of the 100 cases, one was a native of California, and another of the United States, and five of foreign countries. The average was 27 years. There were ten births during March, five male and five female. Increase of birth over deaths during the month, two.

Alleged Burglars Baggott.

Peter Fritz and D. R. Fredericks were taken before Justice Hague yesterday on a charge of burglary. Fritz was released on furnishing \$100 bail, and Fredericks was remanded to the custody of the Sheriff, pending the examination. They are accused of having stolen two shot-guns from the premises of Henry P. Potts, the Wal-Mart colony. Their preliminary examination has been set for next Tuesday morning at 10 o'clock.

Unity Society.

For some Sunday's past the Unity Society have had their pupils filled by local speakers. Tomorrow morning the Rev.

Thomas Van Ness will speak, his subject being "The Mercantile Value of a

Business."

At half past 12 the Los Angeles club will form in at the corner of K and Mariposa streets, and head by the mud, will march to the Hesler Hotel, hence to the grounds. Game will be called at 2:30 sharp.

Church Membership Certificate." Mr. Van Ness will be remembered by those as the gentleman who represents the American Unitarian Association. At the present time all societies or churches of this denomination are under his supervision. The Unity Society will have on April 29th the Rev. Dr. Stedding of San Francisco, and on the 27th the Rev. Mr. Conger of Pasadena.

AMICABLY ADJUSTED.

Their Value Appeals to a Skeptical
Trusty and Severe Hard-
Hearted Passersby.

Some time ago Carrie Hanson entered suit against Christians Hanson and Mrs. Hanson, her husband, to recover \$3000 for slander. Carrie was a domestic in the employ of the defendants, and although the name same is not a relative. She alleged that Mrs. Hanson instigated a report that had caused Carrie Hanson and Carrie in company with Harry Colly, who was under arrest for demolishing Delta F. Roman. Before proceeding to the jail, they tarried for refreshments at the White Eagle Inn, and while waiting for the interview to end, they conversed on sundry subjects. It is believed that Carrie was ever in a commanding position with Harry, and would have for slander, and would be liable for damages, and if he admitted the charge and exonerated his wife he would be liable to him for divorce.

VICTORY SECURED.

The matter has been amicably settled

however by the Hansons certifying to the good character and reputation of Carrie, as the following document filed yesterday will show:

"Mic. too," commented Mr. Lynch.

"I will give you my word," said Mr. Lynch.

After they started for the jail, it was

who had overheard the conversation

between the partners of it to the

trust, and suggested that the visitors

should be accidentally locked in. Under

Sheriff Colly received the message

and snuffed it out.

After he let the visitors in he quietly

locked the iron-barred gate and took a walk down town.

Mr. Dwyer and his friends chatted

very pleasantly with the prisoner for about an hour. Then they bade Mr. Colly adieu and marched down the corridor to the jail-road.

"As I was saying," proceeded Mr. Dwyer, "I am the man of the hour."

He pointed as he joined that the gate

would not open. Then he took hold of the knob with both hands, but the gate was as solid as the South.

"That's strange," exclaimed Mr. Dwyer. "Well, if they haven't locked us in I'll be—"

HELLO THERE.

"That's so," interrupted Mr. Lynch, coolly.

"Hello, there!" yelled Mr. Dwyer.

But there came no answer. Nobody appeared to be in, or rather out.

The shouting and rattling of the gate continued for about half an hour, but there was no response.

The Selma Blackstone painted hard wood, and stopped the perspiration off his brow.

"This is h—h—hot," he exclaimed.

"Hot, from hot as h—h—Honolulu," said Mr. Lynch.

"It is as hot as h—h—Hawaii boys. I'll bid you adieu," was Mr. Potter's observation.

Dwyaer squeezed his hand, too full for

utterance.

HELD IN JAIL.

In sheer desperation they went to a grated window overlooking the courtyard, and after looking out the blue sky, the brilliant sunshine and the bright green foliage of the trees outside their eyes of the trustees approaching.

"Say!" yelled the constable at the Blackstone, "what's the matter with the Sheriff's office? Come up here, unlock the gate and let us out."

That said statement and publication was filed and datarized.

Then on or about the 15th day of September, 1888, in the presence of divers persons, and particularly one Mrs. Sather, up date and concerning the plaintiff the following words: "I caught Carrie Hanson and my husband together at or near our house and my husband struck me in the eye."

THE MEANING OF IT.

That the defendant meant thereby that she had found her husband and Carrie Hanson having improper relations with each other at this time.

That said statement and publications were false and defamatory.

That on or about the month of September, 1888, in the presence of divers persons, and particularly one Mrs. Anderson, up date and concerning the plaintiff the following words: "I caught Carrie Hanson and my husband together at or near our house and my husband struck me in the eye."

THE PLAIN MEANING OF IT.

That the defendant meant thereby that she had found her husband and Carrie Hanson having improper relations with each other at this time.

That said statement and publications were false and defamatory.

That on or about the 15th day of January, 1889, in the county of Fresno, the said defendant Christians Hanson, in the presence of divers persons, spoke concerning the plaintiff the following words:

"I found my husband and Carrie together in bed, while she was working in our house in the summer of 1888!"

FALSY STATEMENT.

That said statement and publication was false and defamatory.

And the defendants jointly and severally admit that each and every defamatory statement or publication heretofore made by the said Christians Hanson, derogatory to the character of the plaintiff in this action, whether specified or not, are wholly false and untrue, and particularly any statements made to one Mrs. Sather derogatory to the character of the said Carrie Hanson, were, and each of said statements were wholly false and untrue.

And the defendants severally say that so far as they have any knowledge, and each believe, that the character of the plaintiff in this action is good, and her conduct, so far as the defendants, and her conduct, of either of them, have knowledge, has always been exemplary.

Dated March 20, 1890.

JENS HANSON,

her

CHRISTIANA (N.) HANSON,

mark.

Also written in German.

Attorney for defendant.

NURSE & SNOOK, Attorneys for plaintiff.

PERSONALS.

Postmaster Sharp of Madera arrived last evening.

The Ladies' Auxiliary of the Y. M. C. A. will give a flag festival sometime in the future.

B. M. Maxey and Charles L. North are planting a forty-acre raisin vineyard near Fowler.

Miss Mary L. Kibbe, an accomplished young lady of Abingville, La., is visiting Mrs. Le Blanc.

Dr. W. B. Doyle, the well-known dentist, has removed his office to the Fiske Building, room 4 and 5.

Miss M. H. Beatty and sister, Miss Annie McCutchen, have gone to Missouri on a visit to relatives.

Mr. and Mrs. L. N. Patterson went to San Francisco yesterday on a visit to their son, E. A. Patterson and wife.

Frank Bellard, who has been looking after his Fresno real estate, returned to his home in Woodland yesterday.

The chloro service as rendered at St. James Episcopal Church on Easter day will be repeated nearly entire to-morrow.

The game was interesting from beginning to finish, resplendent in fine base-running, fielding and batting.

The visitors have had no experience than the home team, and are under the strict discipline from Manager Hallinan and Captain Britain.

Umpire Packard gave satisfaction, but should refrain from using such harsh language as he did yesterday.

The Fresno boys play ball, and with a little more practice will be able to compete with any club in the state outside of the state.

Undoubtedly there will be a good attendance at today's game. For the visitors, the celebrated young fighter Darby will be in the box, and Witty Ward will be at the receiving end.

The home team will not strengthen to some extent, and a good game may be expected.

Miss Sophie Hall of Modesto is visiting her sister, Mrs. J. M. Renck.

Margaret Arnold was yesterday granted a divorce from Alfred P. Arnold by Judge Harris.

Harry C. Colwell, formerly of this city, arrived with his family yesterday from San Francisco.

Elder G. White, the Adventist Prophet, is expected to arrive to-day from Battle Creek, Mich.

Mrs. F. G. Berry, accompanied by her mother, Mrs. E. N. Torrey, arrived last evening from San Francisco.

Mr. Dowie—“The Sweet Redemption Song”—An Oration on the Beauty, Glory and Power of Christ’s Redemption.

Miss Selma Goldthwaite of San Francisco, who has been visiting friends in this city, returned to her home yesterday.

Rev. Dr. DeWitt has gone to Oakland to attend the Baptist State Convention. He will return in time for the Sabbath service.

Charles King disturbed everybody’s peace last Monday night, and paid Justice Hogue yesterday 40.00 for the fun he had.

Charles H. Billings, formerly manager of the Postal Telegraph Office in this city, died of paralysis in Sacramento yesterday.

Colonel Hogan is laying the wires for incandescent lighting in his headquarters. He proposes to put in an oxyx counter this summer.

The Fresno Nationalist Club will meet in Nichols Hall this evening. Everybody is invited to a free discussion on Nationalism, the past and present.

Last week Luke Richardson gave the fifteenth recital this season before the English Society in San Francisco. He will give one recital here April 21st.

Evangelist A. J. Bell is succeeding admirably in the M. E. Church. The singing by Professor Aring is fine. The Little readings at 2:30 p. m. are well attended.

Two sections in the F. F. Vale tract, eight-tenths of a mile of Fresno, have been purchased by an Eastern syndicate, who intend planting it to raisins next season.

Captain C. H. Norris, accompanied by two of his children, started for Bristol, Rhode Island, yesterday, on a visit to his old home. They will be absent about two months.

Rev. J. G. DaVitt and W. P. Hader went to Oakland yesterday as delegates to the Baptist State Convention, which convenes in this city this week. They will return next Saturday.

A mass meeting of property-owners in the suburban addition will be held at the City Hall to-morrow night to consider the question of annexing the addition to the city.

The trial of C. Catheart, the saloon man, for selling liquor without a license, has been postponed until Friday in Recorder Prince’s Court. The City Council refused to grant him a permit.

D. Hudson went to San Francisco yesterday to attend the annual meeting of the trustees of the California College, of which he is a member. He will be absent the remainder of the week.

A social party will be given by the Catholic Ladies’ Aid Society and Young Men’s Institute of Fresno at the Hughes Hotel on Friday evening, April 11th. Music furnished by Riggs Band, and

Minnie D. Eshleman began suit in the Superior Court yesterday against the Henrietta Vineyard Company and others, to perfect title to a fractional part of section 17, township 13, range 21.

H. Pearson, formerly manager of the Hughes Hotel, went to San Francisco yesterday. He intends to go to Salt Lake City, Utah, in a few days to engage in the hotel business.

The Chicago store, in the Grand Central building, on Mariposa street, has adopted the incandescent light system. During the summer ice water will be kept in icey goblets for the accommodation of its patrons.

Tom Lin and Foo Sun quarreled over a tan game in Chinatown last Saturday night and caused such a disturbance that Officer Anderson arrested Tom Lin. Mr. Sun got away, but a warrant is out for him for disturbing the peace.

The Charles Erickson, who recently had the dispute with M. J. Lindgren concerning the irrigation ditch is not the old set of that name. He is the son of Charles Erickson, who is sometimes known as “Axel” Erickson.

Dr. W. T. Maupin and son, Dr. J. L. Maupin, have formed a copartnership. Dr. Maupin, Jr., recently graduated with high honors from the St. Louis, Mo., college of physicians and surgeons. See their card.

Sigmund Wormser, a Kingsburg store-keeper, was arrested recently by Constable Peck of Selma on a charge of taking possession of a plot that was attached in a suit between two other parties. The case has been transferred to the Justice of the Peace Court of this city.

Sigmund Wormser, the Kingsburg merchant, was tried yesterday in Justice Hogue’s Court on a charge of having taken a plot that had been attached in a civil suit. The testimony showed that Mr. Wormser was not guilty of the charge, and he was acquitted.

Press Bozman and “Clipper” Bailey had a slight alteration yesterday, ending in a little fight, during which Press struck at Bailey, and hitting him, ran his hand against the wall of a building with such force that two fingers were badly broken.—*Selma Enterprise.*

Jackrabbits are increasing and multiplying in great numbers, in direct accordance with the decline in population on the uncultivated lands west and south of this city. A rabbit drive is being talked of, it is believed that one will be organized shortly.

“People are making a great deal of noise about the ouzo soda fountain in Thompson’s drug store,” said Colonel Hogan yesterday. “But I don’t propose to let any hand like that take in the pot while I’m around. I have sent for a bar-keeper with an oxyx head. What do you think of that?

Music in the Park.

The band stand long desired in the Court House park is to be erected at last, in fact unless something unusual happens. L. P. Brown, to whom the Board of Supervisors awarded the contract, will begin the work this week. Yesterday afternoon the Supervisors in a body went over the grounds and selected a spot about thirty feet to the right of the main walk leading from Mariposa street to the Courthouse and just outside of the grounds originally fenced in.

The location is one of the most beautiful in the park, owing to the high evergreen shade trees that will surround the stand. The stand will be an octagon, occupying 25 square feet of ground, and will be 8 feet from the basement floor, which will rest on a brick foundation. The contract price was \$345. Other bids received were from Riggs & Rehman, \$321; C. G. Hobson, \$345; Leontart Brothers, \$350.

On a Strong Scent.

After Carmichael’s saloon in this city was closed for lack of business a short time ago, several barrels of whisky were missed by anxious creditors. Deputy Constable Wofford went on the scent, which was strong one, to the west, and it led him to a smoky house, the old Squaw valley, belonging to a man named Overall, where he found three barrels and a keg of whisky. Mr. Wofford brought back the whisky and not a drop was lost by evaporation.

SISTER WHITE’S ADVICE

How She Tried to Manage Elder Daniel’s Family.

SPENDING A PRINCIPLE SALARY.

Extracts From the Pamphlets Issued by the Prophetess to Seventh Day Adventists.

THE FIRE DRILL.

From the Daily of Wednesday.

Ellen G. White, “the Adventist Prophetess,” has been very much exercised over Elder E. P. Daniels’ affairs in the Fresno Church. Two dozocetion pamphlets, one containing eighty pages and the other twenty-eight pages, have been distributed among members of the church in this city. They consist of printed copies of letters from Ellen G. White to Elder Daniels, zealously rebuking him and his family for their alleged worldliness in Mrs. White’s eyes. A copy of the pamphlets is in possession of Titus Kerecuk and from them some extracts are made.

A LIBERAL SALARY.

The larger pamphlet is headed, “Testimonies in the Case of Elder E. P. Daniels,” and the first page is dated, “Oakland, Cal., February 16, 1890.” Then follows address or preface by J. N. Longborough, Pres., in which Mr. Longborough says, speaking of Mr. Daniels, “He is a man I cannot afford to let go for the sum that the conference has paid him. They paid him so much per week for the last year, as any other laity in the conference, and he is the only one but what expressed themselves as perfectly satisfied with their allowance. The following testimonies will explain why he demands so much means to get along.”

The first letter from Mrs. White is dated, “Basel, [Basle?] Switzerland, August 6, 1886.” It is filled with sanctity, advice to Brother Daniels and his family, “Sister Daniels’ last lesson to learn in economy,” is one of the statements.

NOT ECONOMIC.

From Healdsburg, Cal., under date of April, 1888, she says: “The reason that you are in embarrassed circumstances is not because your wages are not enough to support you as a Christian, but you do not know how to manage your money. It is to keep you from embarrassment. It is to keep you from self-indulgence. And 50 a week you would still complain of financial pressure, because your habits of expenditure would keep pace with your means.”

Then follows some advice to the members of Mr. Daniels’ family to the effect that they dress too well to suit Mrs. White’s ideas.

“You should never allow your children to find fault with their food, to murmur because spice, pepper, pickles and condiments are not placed before them. You should not allow them to indulge largely in sweets, eating, unless your habit is to become nervous, irritable and discontented.”

REAL ESTATE AND MONEY.

“Supposing it is no sin for those whom God has not called to minister in word and doctrine to engage in real estate, and that you are not called, would it not be altogether another matter for you, a teacher upon the walls of Zion, to do so?” You need to be constantly digging in the precious mine of the Scriptures that you may bring forth from the treasure house of God’s Word things new and old.”

“You have been self-indulgent in your travels; for you do not generally study to save expense to the cause of God in many ways you needlessly expend trusted means. You are very deficient in keeping track of your expenses.”

“You need to constantly digging in the precious mine of the Scriptures that you may bring forth from the treasure house of God’s Word things new and old.”

“You have been self-indulgent in your travels; for you do not generally study to save expense to the cause of God in many ways you needlessly expend trusted means. You are very deficient in keeping track of your expenses.”

FRIDAY, APRIL 11, 1890.

F. R. Higgins is in San Diego.

Mrs. Dr. C. M. Bates went to San Francisco yesterday on a visit to friends.

Professor J. M. Marin went to San Francisco yesterday on a short business trip.

Henry Miller of San Francisco, the well-known cattle owner, is spending the week in this city.

E. R. Abdo, a mining superintendent of Grass Valley, is in Fresno visiting and looking after property interests.

J. A. Phillips of Danville, Ill., came up from Los Angeles yesterday on a visit to Fresno. He is the guest of E. W. Smith.

S. S. Wright and R. B. Terry left on the noon train yesterday for San Francisco. They will be absent the remainder of the week.

Belle Wilson was arrested for vagrancy yesterday. She is a resident of Chico, but does not pay rent to Maline Livingston.

A. B. Gould of Canfield, Maine, who has been visiting his son Edward, near Manzanar, started on the noon train yesterday for his home.

Louis Braverman, a prominent dry goods merchant of San Francisco, is visiting his daughter, Mrs. Louis Gundlacher and son Al of this city.

The trial of J. Gillette, charged with assault on Dr. C. V. Watson, was held at Sanger last Wednesday and the defendant discharged for want of evidence.

J. Ford was arrested yesterday by Conductor Fraser on suspicion of having stolen some carpenter's tools from a workman on Rev. Dr. De Witt's new residence.

J. R. Jones, otherwise Red Jones, earned the arrest yesterday of George Doe on a charge of fraud. He alleged that Doe owed him \$4,200 and tried to leave the city without paying him.

The site of Fresno patrona Ferera's restaurant, at 1825 Mariposa street, all the delicacies, both domestic and imported, are kept constantly on hand by Ferera, the incomparable caterer. Dinner parties and banquets a specialty.

Another factor has made its appearance in the mill ditch controversy. Small farmers, who get their water supply from that ditch, do not want the water turned out during the irrigation season.

F. D. Poole received the sad intelligence yesterday of the death of his mother at Oakland, N. B., on April 6th. Mrs. Poole resided one year in Fresno and her many friends will be saddened at the news of her death.

Carrie Jacobs, who resides near Dried Fish alley, in the Chinese quarter, gave \$1000 bonds yesterday for her appearance before Recorder Price to answer the charge of stealing \$10 from John Ludwig. She will be tried next Wednesday afternoon.

Mrs. Emma Dibert and daughter of Los Angeles accompanied by Mrs. C. P. Heath and Miss Carrie Hills of Sioux City, Iowa, arrived in this city yesterday on a visit to Mr. and Mrs. W. F. Hills. Mrs. Dibert and Miss Hills are daughters of Mr. and Mrs. Hills.

W. H. Curton will deliver an oration at the Odd Fellows' picnic on Kings river on the 26th inst. Mr. Curton has written some very eloquent and editorials for The Republicans in days of yore, and will give an oration which would do credit to a Roman Senator.

The following well-known gentleman are the Committee of Arrangements for the Odd Fellows' Picnic on Kings river on the 26th inst.: Judge E. H. Smith, the Law laid Down at Length by E. H. Smith.

ERICKSON: I wish to comment a little on the following, which appeared in your issue of this morning:

The trial of the people against Cathcart will be postponed in the Recorder's Court until next Wednesday afternoon.

Mr. K. H. Davis, O. J. Woodward, President of the First National Bank, and Attorney F. H. Short. These gentlemen will be assisted by the officers of the Southern Pacific Company.

An Hem has been going the rounds of the papers to the effect that Charles Erickson of this county went to Oakland recently to buy some town lots, and that he had been dissuaded from purchasing by the warnings of the committee of "Fee to the Mountain" bankers. Mr. Erickson says that he made the purchase all the same.

F. D. Poole received a well-known gentleman from the Committee of Arrangements for the Odd Fellows' Picnic on Kings river on the 26th inst. Mr. Curton has written some very eloquent and editorials for The Republicans in days of yore, and will give an oration which would do credit to a Roman Senator.

Mr. K. H. Davis, O. J. Woodward, President of the First National Bank, and Attorney F. H. Short. These gentlemen will be assisted by the officers of the Southern Pacific Company.

GOOD WORK.

A Chance for Business Men to Help the Boys.

The five ladies desire to make a very important and not expensive addition to their department, and as the city has no funds available for the purpose, the boys are asking that the amount necessary be contributed by property-owners.

They wish to add to the fire alarm system, now in course of construction, about a dozen alarm songs, so that when the boys will sound the alarm when a fire breaks out in any building, and call out immediately a considerable number of the department's most active members.

This addition to the system would be of great benefit to the patrons of any place fortunate enough to secure its services.

The five ladies desire to make a very important and not expensive addition to their department, and as the city has no funds available for the purpose, the boys are asking that the amount necessary be contributed by property-owners.

They wish to add to the fire alarm system, now in course of construction, about a dozen alarm songs, so that when the boys will sound the alarm when a fire breaks out in any building, and call out immediately a considerable number of the department's most active members.

This addition to the system would be of great benefit to the patrons of any place fortunate enough to secure its services.
